PROFESSIONAL SUMMARY

Data analyst with hands-on experience in BI dashboard development, CRM analytics, SQL optimization, and presenting data insights to non-technical stakeholders. Proven ability to synthesize data from multiple platforms, including HubSpot, Databricks, and SAP, into clear, actionable reporting. Adept at cross-functional collaboration and translating complex analytics into business decisions.

WORK EXPERIENCE

Data Analyst Intern | **KATBOTZ LLC** — Bridgewater, NJ *Feb 2026 – Present*

- Developed and deployed an FP&A Co-Pilot, a conversational AI agent on Databricks Apps, enabling non-technical users to query financial data in plain English using a Llama 3.3 70B model with 8 specialized analytical tools (forecasting, variance analysis, trend detection).
- Wrote and optimized SQL queries in Databricks to analyze SAP S/4HANA financial data (100K+ records), reducing query execution time by 30% and enabling faster KPI tracking.
- Developed KPI-focused datasets and supported dashboard creation (Tableau/Power BI) to enable stakeholder tracking of 5+ key metrics including revenue, cost, and margin.
- Architected SAP S/4HANA to Databricks integration via SAP Business Data Cloud (BDC) using Delta Sharing protocol; set up Unity Catalog with full governance and validated the end-to-end pipeline.

Data Analyst Intern | **Datagaps & FocalCXM** — Herndon, VA *Dec 2025 – Present*

- Built 5+ BI dashboards with 20+ reports using SQL and HubSpot CRM to track sales pipeline health, email campaign performance, deal stage progression, and sales forecasting for cross-functional stakeholders.
- Developed contact segmentation strategies by analyzing clickstream and behavioral data; identified that webinars drove 78% of total leads, enabling more targeted campaign strategy and resource allocation.
- Supported A/B testing and conversion rate optimization through landing page performance reports and form submission tracking, contributing to a 25% increase in qualified lead capture.
- Generated and presented marketing and sales performance reports to non-technical stakeholders, translating CRM data into actionable recommendations for pipeline management and revenue forecasting.
- Implemented an AI-powered monitoring agent using Claude AI to proactively flag orders nearing expiration (≤ 7 days), improving operational visibility and enabling timely intervention.

Business Analyst – Capstone Consultant | **Yonder Talent** — Tempe, AZ *Aug 2025 – Dec 2025*

- Partnered cross-functionally with FP&A, procurement, and IT teams to present Tableau-driven customer flow analytics, converting queuing data into financial staffing recommendations that reduced wait times by 15%.
- Built predictive models (regression, SARIMA, XGBoost, Random Forest, clustering) to forecast staffing demand, achieving 90% peak-period coverage accuracy.
- Worked in an Agile environment using Jira to define functional requirements, user stories, and acceptance criteria; supported outcomes with Excel and Power BI dashboards for real-time monitoring.

EDUCATION

M.S. in Business Analytics (Supply Chain concentration) *Aug 2024 – Dec 2025*

W.P. Carey School of Business, Arizona State University | Tempe, AZ | GPA: 3.76
